

Testimonials from FCA Parents

"We reluctantly decided to homeschool starting in 5th grade, then had such a great experience with Foundations that we recently brought in our 1st grader. I have watched my children become more themselves in the most beautiful way. Less of the noise from outside, more nurturing and fostering the love that was lost for learning. The teachers at Foundations are excellent. They are so happy to see our kids and share with them all God created. They have a love for the subjects they teach and do not seem overwhelmed or burnt out. I don't know what we would have done without Foundations. It made homeschooling possible for a working mom and gave us a gift we will cherish forever!"

"FCA has been such a blessing to our family over the last ten years! My children who have completed sixth grade and moved on to other schooling options have been very well prepared academically and that is in large part to the wonderful teachers at FCA. The teachers take the time to truly know my children and want the very best for them. This tutorial allows us to homeschool and still have a "school" experience giving my kids opportunities they wouldn't have otherwise. We are so thankful for FCA!!"

"When I attended the FCA tour, they verbally represented EVERY value I held when it came to homeschooling, from the Christian character it affirms, to strong academic values, to the teachers being passionate about their calling and well qualified, to the support they want to offer homeschooling families. Our experience with FCA now has only backed up what we heard that day. We could not be more thrilled with our choice of FCA!"

"We love FCA! One of my favorite things has been how friendly and welcoming everyone has been our first year here. It is such a sweet and encouraging homeschool community."

"Our story is probably a little different from most of the parents at FCA. We did not start out our kids in their early elementary years in the homeschool world. Our 2 children were at a private, Christian school. Although God used their time there for the season of their life at the time, we had to pull our son out mid-year in 3rd grade to homeschool him. We were thrown into the world of homeschooling without knowing much but God directed us to talk to friends and tour several tutorials before deciding on FCA. Right away, my son felt loved and accepted. The next year my daughter joined him in the homeschool/FCA life, and we haven't looked back since. We have found a family at FCA and we're so grateful for the families that have guided and helped us along our bumpy journey into homeschool life these past couple years."

"We feel so blessed to attend FCA. It has been the perfect companion to our homeschooling. My daughter loves all the hands-on science experiments, the living history museum, and the novel studies. We all love the rich community here. It truly is the perfect fit for us right now! We are so thankful for FCA!"

"Foundations Christian Academy was an answer to prayer for us. It's the best of all academic worlds...a private school education with biblical teachings and a homeschool community to partner with. I love that my kids get a classroom experience with peers, projects and homework without interfering with the freedom and flexibility of homeschooling. Every person involved with FCA has a heart for teaching my kids to pursue Jesus, love and truth, and that's a very special thing to be a part of. I couldn't ask for a better place for my kids to go when I'm not homeschooling them."
